The **PUROTWIST 3000** REVERSE OSMOSIS semi-permeable membrane rinses contaminants to the drain. High quality, filtered drinking water is produced and conveniently stored in a sealed tank. The **PUROTWIST 3000** lead-free faucet easily delivers an abundant supply of clearer, cleaner, and fresher drinking water to you and your family.

Three Stage Purification Process

Stage 1 *Pre Carbon Filter:* Provides protection to the RO membrane from free chlorine and sediment.

Stage 2 *Reverse Osmosis Membrane:* Membrane reduces a high percentage of dissolved inorganics.

Stage 3 *Post Carbon Filter:* A final polishing process that enhances and clarifies your drinking water.
