LINE CARD (PARTIAL LIST)

Good Water Warehouse, Inc. is a stocking, master distributor for over 150 manufacturers of the highest quality residential, commercial, and industrial water filtration components and equipment. We offer factory direct pricing, worldwide distribution, short lead-times, and a knowledgeable and experienced customer service team. Please note that this is a partial list of the manufacturers that we represent. We add new manufacturers and product lines weekly. Please contact one of our customer service representatives if you do not see the manufacturer or products you require.

MANUFACTURER		PRODUCT DESCRIPTION
	AirGap International	R/O and Water Softener Air Gaps
	Amtrol™ Inc.	R/O Pressure Tanks
	Apex®	Pressure Regulators
	Aquamor	Membrane Housings, Flow Restrictors, Shutoff Valves, Clips and Drain Connectors
	AquaLock™	Large Diameter /High Pressure/Temp Quick Connect Fittings
	Aquatec Water Systems Inc.®	Delivery, Booster, Permeate R/O Pumps and Electronic Solenoids
	Blue-White Industries®	Flow Meters and Injector Pumps
	CSM®	Residential/Commercial Membranes
	EMD Global LLC	Specialty Faucets and Accessories
	Extech Instruments®	Water Testing Equipment
	Falcon Stainless (Rectorseal)	Stainless Steel Water Flex Connectors
	Filtrex Technologies	ECOCARB™ greenblock® Environmentally Friendly Filters
	Filmtec™	Commercial and Residential Membranes
	Flojet®	Booster and Delivery Pumps
	H2O International®	Shower Filters, Counter Top Filter Systems
	Harmsco Inc.®	Commercial and Residential Pleated Filters and Housings
	Hydranautics®	Membranes Commercial Membrane Elements
	Hydronamic Engineering®	Shutoff Valves, Check Valves and Flow Restrictors
	Hypro-Precision®	Plastic and Metal Fittings, Ball Valves and Pressure Gauges
	Jaco Manufacturing®	Compression Tube Fittings
	John Guest® an RWC Brand	Quick Connect Tube Fittings, Shutoff Valves and Food Grade Tubing
	KDF Fluid Treatment Inc.®	KDF® Media

TERMS AND CONDITIONS OF SALE

GOOD WATER WAREHOUSE, INC.

ORDERING: Orders may be placed by phone, fax, and/or e-mail to **Good Water Warehouse, Inc.** Authorized purchases must include customer PO number, manufacturer's/GWW's part number, and pricing. Purchase orders received without part numbers will not be processed until the customer is contacted and part numbers are verified. Purchase orders must state if partial shipments are allowed and must designate required shipping method. If you do not have the parts numbers, pricing, or case quantity, please contact our sales department or visit our web site (www.goodwaterwarehouse.com).

ORDER CONFIRMATIONS: All purchase orders will be confirmed by phone, fax, or e-mail. Any discrepancies in pricing, part numbers, descriptions, and/or case quantities will be noted in the order confirmation. It is the customer's responsibility to review the order confirmations and advise if any changes are required. If we do not hear from the customer regarding the confirmation, we will process order according to the confirmation.

MINIMUM ORDERS: Minimum order accepted is \$100.00 net, exclusive of freight. Any orders placed that are less than \$100.00 will be assessed a \$10.00 service charge.

TERMS: Terms given on approved credit. Past due accounts will be charged interest at 1 1/2% per month. Credit will not be extended to accounts with poor payment history. Without approved credit, orders are shipped on a prepaid basis within the USA, and Irrevocable Letter of Credit or prepaid outside of the USA. Large orders and/or special item orders may also be subject to a down payment.

NSF CHECKS: There is a \$25.00 charge for all NSF checks.

INVOICING: All shipments are invoiced the day of shipping. Customers are required to pay all invoices in full within terms. Short payments on invoices are not acceptable. All questions regarding invoices and payments must be addressed with our accounts receivable department before invoices become due.

WILL CALL ORDERS: All standard ordering terms apply to WILL CALL orders. The customer must advise what day and time they will pick up the order. Completed WILL CALL order will be held for a maximum of 3 business days. A restock charge may be assessed to any WILL CALL orders that are not picked up within the required time frame. Additions or deletions to WILL CALL orders after invoicing are subject to all new order Terms and Conditions. Orders are typically pulled within one working day. WILL CALL orders can be picked up Monday – Friday from 9:00 AM – 11:30 AM and from 1:30 PM – 3:00 PM. Expediting fees may apply to same day pick ups and walk in orders. All customers are required to have a copy of their order or an order number when picking up.

TAXES: Taxes are not included. Quoted prices are exclusive of all taxes. Purchaser shall be responsible for payment of all applicable state/local sales, use and/or gross receipts' taxes resulting from transactions with **Good Water Warehouse, Inc.**, regardless of placement of liability for the tax by law. Orders shipped within California, or to Canada are subject to applicable county tax rates unless a completed resellers' card or exempt certificate is on file.

FREIGHT: All shipments are F.O.B., **Good Water Warehouse, Inc.**, Fullerton, Ca. All drop ship order will be assessed a \$10.00 handling charge.

ROUTING: To be specified by customer on purchase order, otherwise, Good Water Warehouse will ship best method.

ORDER CHANGES: Additions to an order may be made at no charge prior to the processing of an order. Processing of an order typically begins within one hour of receipt of purchase order and is typically accomplished within one working day. Deletion and/or changes to an order after it has been processed are subject to a \$25.00 minimum handling fee. Changes may cause additional charges and may increase the time required to ship an order.

RETURNS: A Return Goods Authorization (RGA) number must be obtained from **Good Water Warehouse, Inc.** within 45 days of the invoice date before any returns can be shipped. All returns for warranty consideration must be shipped prepaid. Freight collect returns will not be accepted. Returns determined to be in warranty will be replaced or repaired, and will be returned to the purchaser prepaid by surface freight.

FREIGHT CLAIMS: Shipments are the purchaser's responsibility. All shipments must be inspected for damages and counted for shortages at the time of delivery. Freight claims must be made immediately and directly to the freight carrier. **Good Water Warehouse, Inc.** will not be held responsible for breakage or shortage after products are accepted from common carrier. Any damage or discrepancy must be noted immediately and reported to GWW within 72 hours of receipt of merchandise or claim will not be accepted.

RESTOCK: Minimum restocking charge is 20% or \$50.00, whichever is higher. Orders shipped incorrectly are not subject to restock charge and correct items will be shipped prepaid by surface freight. All other returns are subject to the restock charge. Goods must be in original container and in saleable condition to be considered for restocking.

CANCELED ORDERS: Orders placed but canceled AFTER the order has been processed and sent to shipping or engineering, will be subject to a minimum 10% cancellation fee (\$50.00 minimum), assuming manufacturing has not commenced, and no detailed engineering or special parts have been ordered. Additional fees may be charged depending upon the level of completion of detailed engineering and/or if any special parts have been ordered.

THERE ARE NO EXCEPTIONS--THANK YOU FOR YOUR BUSINESS

VALUMAX™ FLECK™ WATER SOFTENERS

5600 WATER SOFTENERS

- Durable time proven valve design using fiber reinforced polymer construction
- Available electromechanical and SXT electronic controls
- Down flow regeneration
- Continuous flow rate up to 20 gpm (valve only)
- Composite media tank
- 1" high flow basket riser
- 8% crosslink resin
- Heavy duty blow molded brine tank
- Brine safety valve with air check
- 5 year warranty on control, 10 year on resin tank

Softeners / POE

5600C

- 12 day clock operation
- Adjustable brine setting

Valumax 5600C - Clock Control (Not for sale in California)

Install parts (bypass valves, tube adapter kits, drain fittings) are sold separately and are listed on page 19.

Units up to 2 cubic feet (12" x 52" media tank) are shipped with media loaded. Larger systems have media packaged separately which must be loaded on site.

Softeners / POE

5800 WATER SOFTENERS

- Fiber reinforced polymer valve body construction
- Cartridge based seal and spacer design
- Soft water brine refill
- 10,000 rpm 12v DC drive
- Optical sensor technology for precise piston control
- Available SXT and XTR2 electronic controls
- Programmable relay output. 1 on SXT control and 2 on XTR2 control.
- Variable reserve
- Optical sensor technology for precise piston control
- Down flow regeneration
- Continuous flow rate up to 21 gpm (valve only)
- Composite media tank
- 1" high flow basket riser
- 8% crosslink resin
- Heavy duty blow molded brine tank
- Brine safety valve with air check
- 5 year warranty on control, 10 year warranty on resin tank

5800SXT

- Service flow up to 21 GPM
- 3/4" turbine meter
- For 3/4" or 1" plumbing connections

The new Pentair® Fleck® 5800 XTR2 Enhanced with AccuSense™ Technology:

- Thrives in areas where water hardness fluctuates.
- Processes real-time water hardness data through the XTR2 sensor control.
- Initiates regeneration only when the resin bed is exhausted (less reserve capacity).

VALUMAX™ FLECK™ BACKWASHING FILTER SYSTEMS

- Filter media selection is based on application.
- Media data sheets are available through customer service if required.
- Backwashing filters shown represent common sizes and media choices.
- Other sizes and media selections are available.

Air Injection Oxidizer Filters (AIO)

- Simplified Iron, Manganese, and Hydrogen Sulfide removal.
- Chemical free, single tank solution.
- Utilizes an air draw cycle to create a captive air pocket above the media bed to enhance oxidation and filtration.
- SXT electronic time clock control
- 4 cycle operation - Backwash, Air Draw, Fast rinse, Service
- BIRM media for Iron and Manganese removal. Refer to media data sheet for application guidelines.
- Catalytic Carbon media for Hydrogen Sulfide removal.

5800 SXT with Feeder

Greensand Plus Filters

- Removal of Iron, Manganese, Hydrogen Sulfide, Arsenic and Radium
- Effective over a broad pH range
- Batch regeneration
- Includes 10"x16" potassium permanganate feeder tank.
- 5 cycle operation - Backwash, Chem Draw, Fast rinse, Refill, Service

Greensand Filters (With KMnO4 Feeder)

5800 SXT

Nextsand Filters

- Turbidity reduction providing filtration down to 3-5 micron
- High service flow
- Removal of precipitated material after chemical feed (chlorine, peroxide, etc)
- Durable, long lasting media (typically 5+ years)
- 3 cycle operation - Backwash, Fast rinse, Service

FLECK™ VALVES

FLECK VALVES

Additional parts may need to be ordered separately to modify valves for your application.

See page 20 for other available injectors and flow control washers.

Covers, bezels, drain retainers and other parts not included with valves are listed below the valve section.

VALUMAX™ AUTOTROL™ WATER SOFTENERS

Will Call / Truck Shipments Only

Softeners / POE

VALUMAX 255 Water Softeners

- Composite media tank
- Heavy duty blowmolded brine tank
- Full 3/4" flow throughout system
- Upper distributor basket
- CSA B483.1
- 8% crosslink resin
- Brine safety valve with air check
- 12VAC UL/CSA electrical system with 12' cord
- 5 year warranty on control
- 10 year warranty on composite media tank

255 Easy-iQ Control Valve

- Time-tested flapper provides frictionless sealing for longer service life
- Fiber-reinforced polymer valve body for superior strength and durability, non-corrosive, and UV-resistant
- Optical sensor for precision cycle positioning
- Designed with double backwash for reduced hardness leakage
- Fully adjustable 5- or 8- cycle control for efficient and reliable water treatment system
- Continuous service flow rate of 15.5 GPM with a backwash of 6 GPM
- Backwash capability accommodates softener tanks up to 14"
- Designed for single or multiple tank systems
- Super capacitor keeps time of day and stores memory in the event of power outages
- Environmental protective cover for water resistance, corrosion resistance, and UV stability
- Historical data on valve performance

- Install parts (bypass valves, tube adapter kits, drain fittings) are **sold separately** and are listed on page 32.
- Units up to 2 cubic feet (12" x 52" media tank) are shipped with media loaded. Larger systems have media packaged separately which must be loaded on site.

ULTRAMAX™ WATER SOFTENERS

Will Call / Truck Shipments Only

Ultramax™ is GWW's EXCLUSIVE water softener dealer program for all of the USA & Canada.

Softeners / POE

Ultramax Standard Features

- Composite media tank with attractive and durable chrome tank jacket
- Heavy duty blowmolded brine tank
- 12VAC UL/CSA electrical system with 12' cord
- Soft water refill for a cleaner brine tank
- Full 1" flow throughout system
- Internal turbine meter assembly
- Fully adjustable 8 cycle control for efficient and reliable water treatment system
- Limited Lifetime Warranty on Salt tank, Resin tank, ion exchange resin and control valve body
- 7 year warranty on electronic control and all other parts
- 8% crosslink resin
- Brine safety valve with air check
- Upper distributor basket
- Fully programmable control
- Up to 25 GPM continuous service flow
- Quick and simple bypass installation

Ultramax 268/860 Features

- Efficiency rated to 5,500 grains/pound of salt
- Quick set up to high efficiency settings.
- Fully programmable cycle times allowing the system to be tailored to practically any water condition.
- Refill sensor probe test salinity of the brine solution during every regeneration and generates an on screen alert if no salt is present.
- Refill sensor probe creates chlorine dioxide during each regeneration cycle to sanitize the resin bed.
- Multi-language display including English, French, and Spanish
- Exclusive color LED display with graphical indicators for system capacity remaining and water flow.
- Programmable service reminder generates on screen notification for scheduled maintenance on installed equipment.
- In service display shows time of day with current flow rate and remaining capacity available at the touch of a button.
- 28 day variable reserve learns and reacts to changing water usage patterns
- Full system diagnostics: totalizer, peak flow, last regeneration, last service, and average water use for each day of the week.

Install parts (bypass valves, tube adapter kits, drain fittings) are sold separately.

VALUMAX™ AUTOTROL™ BACKWASHING FILTER SYSTEMS

- Filter media selection is based on application.
- Media data sheets are available through customer service if required.
- Backwashing filters shown represent common sizes and media choices.
- Other sizes and media selections are available.

• Install parts (bypass valves, tube adapter kits, drain fittings) are **sold separately** and are listed on next page 33.
 • Backwash flow rates should be considered for drain pipe sizing and should typically be 3/4" OD or larger.
 • Units up to 2 cubic feet (12" x 52" media tank) are shipped with media loaded. Larger systems have media packaged separately which must be loaded on site.

Carbon Filters

- Chlorine reduction
- Taste and odor reduction
- Reduction of chemical by-products of chlorination, pesticides, herbicides and other organic chemicals
- 3 cycle operation - Backwash, Fast rinse, Service
- EiQ professional electronic time clock control
- Carbon works by chemical adsorption, and will need periodic replacement to maintain effectiveness

Greensand Plus Filters

- Removal of Iron, Manganese, Hydrogen Sulfide, Arsenic and Radium
- Effective over a broad pH range
- Batch regeneration
- Includes 10"x16" potassium permanganate feeder tank.
- 5 cycle operation - Backwash, Chem Draw, Fast rinse, Refill, Service
- EiQ professional electronic time clock control

Greensand Filters

Birm Filters & Air Injection Parts

- Iron and Manganese removal (requires presence of dissolved oxygen in water)
- Chemical free operation
- Typically used with air injector (installed ahead of well pressure tank) and air contact tank with off gas vent.
- Not suitable for use with chlorine or other chemical feed systems.
- 3 cycle operation - Backwash, Fast rinse, Service
- EiQ professional electronic time clock control

Pro ResCare® Liquid Resin Cleaner Maintains Performance of Softener Resin. Pro ResCare is a specially formulated liquid resin cleaner designed to clean resin pores of iron, manganese, silt, metal particles and organic compounds that cause softener inefficiencies. Regular use of ResCare resin cleaner will restore the softener beads and control valve parts back to peak efficiency. For best results, use a Res Care Automatic Feeder or manually add during regeneration to prevent mineral build up. Pro Res Care is NSF Certified to meet NSF/ANSI Standard 60 for drinking water additives.

Pro ResCare

Pro Rust Out
5LBS & 1.5LBS

Pro Rust Out® - Water Softener Rust Remover Maintains Performance of Softeners on Iron Bearing Water. Pro Rust Out chemically removes iron and rust build-up that coats the resin beds and fouls the softener. This iron build-up is not totally removed during normal regeneration of a water softener. Using Pro Rust Out in a water softener will eliminate rust and foreign matter from the resin bed. This increases the life of the softener and reduces rust staining on household fixtures and other surfaces.

Part #	Description	1+	6+	30+
LI0616N	PRO RUST OUT INSTANT LIQUID; 16 OZ BOTTLE	\$5.20	\$4.83	\$4.46

Softener Mate

Pro Softener Mate® - All Purpose Water Softener Cleaner Maintains Performance of All Softeners. Pro Softener Mate softener cleaner is a unique blend of chemicals formulated to remove limited iron, manganese, silt, metal particles and organic compounds that cause softener inefficiencies. Regular use of Softener Mate softener cleaner as a maintenance program will restore the softener back to peak efficiency and maintain the life of the unit.

Poly-Guard Phosphate
(GL41N)

Poly Guard® - Prevent Hard Water Stains Rust & Scale Preventer. Pro PolyGuard Scale & Rust Preventer (Liquid) is specifically formulated to prevent hard water stains, including scale and iron staining in commercial, industrial and residential potable water applications. PolyGuard forms a protective coating on metal and plastic surfaces preventing hard water stains, scale, corrosion and copper leaching. To eliminate hard water stains, inject PolyGuard by chemical feed pump into the raw water system as close to the source as possible. This product is NSF Certified to meet NSF/ANSI Standard 60 for drinking water additives.

Sani-System - Sani-System Liquid Sanitizer Concentrate is the only EPA registered & NSF approved sanitizer for use in water softeners and reverse osmosis units. It's proven to kill 99.99% of harmful bacteria without using chlorine, oxidizers or acids that can harm system equipment, parts and resin. Each packet of concentrated formula sanitizes equipment in just 60 seconds and is available in exact pre-measured doses for both water softeners and RO units.

Neutra Sul® - Eliminate Rotten Egg Smell Professional Grade Oxidizer Protects Against Irregular Coloring and Rotten Egg Smells in Treated Water. Pro Neutra Sul® is formulated to remove the rotten egg smell and pollutants from any water supply through oxidation. Neutra Sul is a blend of Hydrogen Peroxide 7% solution and will prevent the formation of colors, tastes, corrosion and scaling by pollution degradation. Pro Neutra Sul is NSF Certified to meet NSF/ANSI Standard 60 for drinking water additives.

RO Systems

FRESHPOINT UNDER COUNTER REVERSE OSMOSIS SYSTEM

FRESHPOINT REVERSE OSMOSIS SYSTEMS

System Tested and Certified by NSF International against NSF/ANSI Standard 42, 53, 58, and CSA B483.1 for the reduction for the claims specified on the Performance Data Sheet.

50 GPD
FreshPoint 3 Stage
(C-161110)

75 GPD
FreshPoint 4 Stage
(C-161111)

75 GPD
FreshPoint 5 Stage
(C-161112)

FreshPoint RO Features:

- High efficiency GRO 75 GPD membrane technology (GRO-475BP only)
- Effortless click-in lock cartridge installation
- 3/8" push fit plumbing connection for easy installation and high flow
- Color coded cartridges to maintain proper filter sequence
- Lead and chemical reduction cartridge
- Faucet with air gap included
- 3/8" tubing to storage tank and faucet

PENTEK RO-2550 REVERSE OSMOSIS SYSTEM

System Tested and Certified by NSF International against NSF/ANSI Standard 42, 53, 58, and CSA B483.1 for the reduction for the claims specified on the Performance Data Sheet.

Pentek RO-2550 RO Features:

- Includes 50 gallon per day reverse osmosis element
- Installed under the sink
- Water on demand delivered from a 2.8 gallon storage tank
- Automatic shut-off valve helps conserve water
- Reduces salts, dissolved minerals, bad taste and odor
- Designed for chlorinated and non-chlorinated water
- Reduces particles as small as 1/1000 of a micron in size by mechanical means

Part #	Description	1+	2+	5+
HS-UF440	3/4" PORTING 4x40 MEMBRANE W/ AUTO FLUSH	\$3,461.77	\$3,147.06	\$3,021.18
HS-UF440 MEMBRANE	4x40 MEMBRANE REPLACEMENT	\$757.90	\$689.00	\$661.44

FEATURES:

- Intelligent Self Cleaning System Using a Solenoid Valve to Drain for Selectable Time and Duration
- 3-PP True Union Ball Valve By-Pass Configuration to Provide Complete Redundancy
- Ultra Filter Membrane uses Patented Multi-Bore Technology to Provide Consistent Product
- NSF Certified 61 on all Materials of Construction; NSF/ANSI 419 Drinking Water Equipment Performance-Filtration
- 0.03UM Membrane for Certified Removal of Cryptosporidium and Virus Reduction

ULTRA FILTRATION OPERATING PARAMETERS:

- Pressure Requirements: Minimum 40 PSI; Maximum 80 PSI
- Temperatures Requirements: Minimum 5° C; Maximum 35° C
- Solenoid Electrical Requirements: 110V, 1 Phase, Meets CSA Standards
- Membrane Life Expectancy: 1-2 Years Before Replacement is Needed

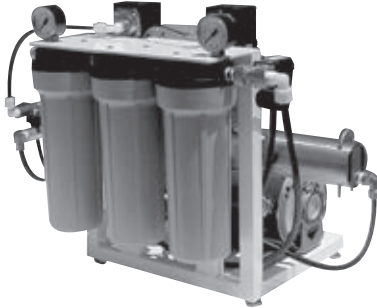

COMMERCIAL REVERSE OSMOSIS SYSTEMS

GOOD WATER WAREHOUSE, INC. can provide you with commercial & light industrial reverse osmosis systems for different applications. Our systems range from 150 gpd to 1 million gpd for tap, well, municipal and sea water applications. Full packages with pre and post treatment are also available. For special applications or larger commercial units please contact GWW.

RO Systems

Reverse Osmosis Compact I Units

Compact I
(ROS/COMP-___)

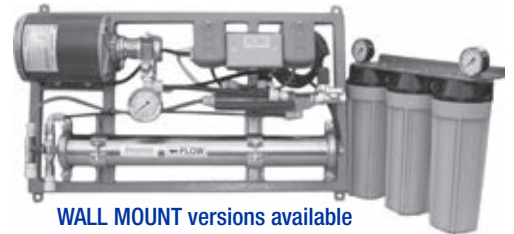

Part #	Description	1±	2±	5±
ROS/COMP-150	175 GPD R/O COMPACT I; 110/60	\$1,930.72	\$1,847.97	\$1,792.81
ROS/COMP-250	250 GPD R/O COMPACT I; 110/60	\$2,089.71	\$2,000.16	\$1,940.45
ROS/COMP-450	450 GPD R/O COMPACT I; 110/60	\$2,120.00	\$2,029.15	\$1,968.57
ROS/COMP-800	800 GPD R/O COMPACT I; 110/60	\$2,263.86	\$2,166.84	\$2,102.16

STANDARD FEATURES:

- Thin film composite membrane
- Stainless steel membrane vessel
- Powder-coated steel frame
- Liquid-filled system pressure gauge
- Inlet/Outlet pre-filter gauges
- Fixed waste/recycle flow controls, stainless steel
- High-pressure nylon tubing
- High-pressure brass comp. fittings
- Storage tank pressure switch
- Feed water inlet solenoid valve
- Feed water low pressure switch
- Rotary vane pump
- 1/2 hp motor (150-450 gpd)
- 3/4 hp motor (800 gpd)
- 10" 5 micron sediment pre-filter (1)
- 10" carbon block pre-filters (2)
- 110 volt-50/60hz

OPTIONS:

- Nanofiltration membrane
- Super Hi-Flow membrane
- Float switch for atmospheric tank
- 220 volt-50/60hz
- Wall Mount Design
- Low pressure models ideal for less than 2000 TDS water.

WALL MOUNT versions available
call for details.

BASIC MODEL FEATURES:

- Webtrol Stainless Steel Multi-Stage Pump
- Motor Thermal Overload Protection
- VEOLIA AK-90LE Ultra Low Energy Membrane Elements
- Stainless Steel Membrane Housings
- 5 Micron Sediment Filter Cartridge
- Pentek 20" Big Blue Filter Housing
- Permeate Flow Meter
- Concentrate Flow Meter with Adjustable Needle Valve
- Recycle Flow Meter with Adjustable Needle Valve
- Low Pressure Switch
- Pump Operating Pressure Gauge
- Pre-Filter In/Out Pressure Gauge
- Product Water Check Valve
- Pretreatment Lockout
- Ideal for less than 2000 TDS water

DELUXE MODEL UPGRADED FEATURES:

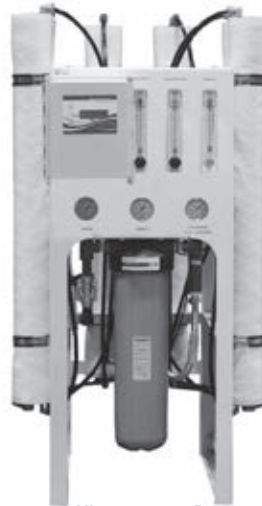

- Auto-Flush Solenoid Valve & Multiple Programming
- Dual Probe TDS Meter
- Powder-Coated Aluminum Frame
- Codeline Fiberglass Membrane Housings

Pro Line Ultra Series - Commercial RO - Deluxe

Part #	Description	1±	2±

ULTRA-15600-D	15600 GPD RATED; 220V; ULTRA LOW ENERGY	\$8,530.64	\$7,354.00

DELUXE MODEL FEATURES:

- Powder-Coated Aluminum Frame
- Webtrol Stainless Steel Multi-Stage Pump
- Motor Thermal Overload Protection
- GE AK-90LE Ultra Low Energy Membrane Elements
- Codeline Fiberglass Membrane Housings
- iControls ROC 5 Controller with Conductivity Probe
- Auto-Flush Solenoid Valve & Multiple Programming
- 5 Micron Sediment Filter Cartridge
- Pentek 20" Big Blue Filter Housing
- Permeate Flow Meter
- Concentrate Flow Meter with Adjustable Needle Valve
- Recycle Flow Meter with Adjustable Needle Valve
- Low Pressure Switch
- Pump Operating Pressure Gauge
- Pre-Filter In/Out Pressure Gauge
- Pretreatment Lockout
- Product water tank level connection (Level Control not Inc.)
- Powered relay output
- Ideal for less than 2000 TDS water

ESYBOX SYSTEMS

Store And Pressurize High Volume RO Water

Fully integrated electronic Pump system ...in a box. No further pump items required.

RO Systems

The EsyBox Pump System & The EsyBox tank system designed and plumbed for the EsyBox pump! A turn-key storage tank and pump, for your ULTRA RO systems! Fully integrated electronic booster pump.

ESYTANK 500 Mini

Use with EsyBox Mini 3

EsyTank 500 Mini 500 LITER (132GAL.) CAPACITY

The ESYTANK is made from food-grade, high-density polyethylene (HDPE) and comes pre-fitted with all essential components for easy integration: servo-controlled float valve, overflow system, foot-valve-equipped suction pipe, delivery pipe, and the ESYDOCK mounting base.

- Drinking water storage for use with pressure booster pumps
- Engineered specifically for DAB E.SYBOX Mini 3 integration
- Eliminates backflow risk and ensures compliance with mains supply regulations
- Includes essential installation fittings: float valve, suction & delivery pipe, E.SYDOCK
- Ideal for mains-boosting setups where direct connection is not permitted
- Compact footprint – suitable for installation in confined indoor areas
- Made from recyclable, potable-grade materials

ESYBOX Mini 3

EsyBox Mini 3 INTEGRATED WATER PRESSURE BOOSTER PUMP

The ESYBOX Mini3 is a water boosting pump designed for residential and small commercial use. The ESYBOX Mini3 creates constant pressure through VFD (Variable Frequency Drive) technology, optimizing its integrated inverter to reduce noise and water consumption.

- Automatic Voltage Detection: 115/230
- Self-priming, multi-stage pump
- Pressure and flow sensors
- High-resolution LCD display
- Integrated 0.5-gallon expansion tank
- Installs vertically or horizontally
- Constant pressure: set from 15 to 75 PSI

ESYBOX DIVER

ESYBOX BASE

EsyBox Diver

ESYBOX DIVER is a 7" multi-stage electronic pump with variable frequency drive for clean water designed for use in rain water tanks, wells, cisterns or tanks. Usable submerged, partially submerged or on the surface (with the appropriate accessory). The pump can also be installed horizontally.

Flow rate maximum	31.7gpm (7.2 m3/h)
Head up to	180ft (55m)
Maximum immersion depth	39ft (12m) standard version
Minimum suction depth	4.33" (110mm)
Minimum level of water	1.38" (35mm)
Liquid temperature range	From 32°F to 131°F (+0°C to +55°C)
Outlet connection	Threated 1" 1/4 NPT

HARMSCO® SEDIMENT FILTERS

SureSafe™ Anti-Microbial Cartridges

Harmsco® SureSafe™ cartridges utilize Silver Zeolite technology. Harmsco® SureSafe™ antimicrobial media is fabricated with the latest in Silver Zeolite technology. Unlike competitive “treated media” products, Harmsco® SureSafe™ antimicrobial cartridges will continue to provide safety and protection for your customers while outlasting the competition. Silver Zeolite technology has been effective against more than 650 strains of bacteria, fungi and molds in laboratory environments. It has completed FDA testing and is registered with the EPA.

Poly Spun Sediment Filters

PURTEX™ SEDIMENT FILTERS

Purtrex™ Depth Filters

Purtrex depth filters are an exceptional value for general applications where long life, high purity and low change-out frequency are required. Produced through VEOLIA's patented melt blown micro-fiber technology, Purtrex is a 100% pure polypropylene depth filter with exceptional dirt-holding capacity.

Housings / Filters

VALUTREX™ CARBON BLOCK FILTERS

Valutrex™ carbon block filters are suitable for a wide range of Point of Use (POU), Point of Entry (POE), commercial and industrial applications.

Valutrex™ carbon block filters are made from 100% coconut shell carbon, a renewable, ecologically sustainable material. The carbon is processed into blocks using a unique binder system and proprietary manufacturing techniques to produce filters with a greater number of micro-pores, which display superior adsorption capacity and kinetic dynamics

Features

- 5 micron nominal filtration
- Exceptionally low pressure drop
- High dirt holding capacity

* Performance claims are based on manufacturer's internal test data. Actual performance is dependent on influent water quality, flow rates, system design and application. Results may vary. Micron ratings are based on >85% removal of the given particle size.

Housings / Filters

KX® MATRIKX® CARBON FILTERS

INTRODUCING THE INDUSTRY'S FIRST AND ONLY FULL LINE OF ACTIVATED CARBON BLOCKS WITH ENHANCED PFAS & CHLORAMINE CLAIMS.

Matrikx® revolutionized water filtration when it launched its first activated carbon block in 1996. In the decades since, has earned a reputation for innovation. Our latest breakthrough is high performance catalytic carbon technology. is proud to announce the addition of PFAS & Chloramine reduction claims across our standard range of New and Improved carbon blocks.

Housings / Filters

FILTREX® CARBON FILTERS

Filtrex Technologies is the first carbon block manufacturer to use NSF61 listed greencarbon™ developed by Global ECOCARB Pvt Ltd. This high performance coconut shell carbon is manufactured using a patented process that significantly reduces harmful Green House Gas Emissions.

K-Series Connection Fittings & Codes

A = 1/8" straight female machine thread

B = 1/4" straight female machine thread

C = 3/8" straight female machine thread

J = 1/4" straight female QC

K = 3/8" straight female QC

S = 90° single female QC

T = 90° twin female QC (inlet only)

K-Series Filters

The **K-Series** filter is available in 6", 8", 10", 12" or 14" lengths manufactured in 2" or 2.5" diameters. The true benefit is that systems can be designed to incorporate the various lengths & diameters - either all the same size or intermixed - to meet specific filtration needs.

K-Series Connection Fittings & Codes

- A** = 1/8" straight female machine thread
- B** = 1/4" straight female machine thread
- C** = 3/8" straight female machine thread
- J** = 1/4" straight female QC
- K** = 3/8" straight female QC
- S** = 90° single female QC
- T** = 90° twin female QC (inlet only)

Easy to use Twist Off Filters

(No tools. No drips. No hassles)

The **Q-Series** is the ultimate "user friendly" inline filter on the market. Replacement of the spent media bed is completed in a matter of seconds by detaching the filter body from a permanent head with a twist of the wrist. The new filter body is just as easily threaded into the head and the replacement is then complete.

Q-Series Filters

Valved Head

Non-Valved Head

OMNIPURE® E SERIES FILTERS

All Omnipure E, ELF & ELF XL filters can be ordered with the small bayonet "SB" at no extra charge. These will allow them to be used on all ELF DK7 Heads that have the underscore on the head by the inlet as well as the most popular Everpure heads on the market.

ELF DK7 head

E-Series replacement bodies are offered in 6", 8", 10", 12" and 14" lengths. Bodies are tested to withstand pressure of 125 psi and temperature of 100° F. Media service life is designed to handle up to 3,000 gallons in some models and filtration micron ratings are as low as 1 micron in other models.

E-Series Filters

H2O INTERNATIONAL® SHOWER FILTERS

H2O International® Shower Filter Heads with chlorine removal system provide you with a simple, effective way to remove this contaminant and improve your shower experience.

H2O International® Shower Filter Heads with chlorine removal system remove up to 99% of harmful chlorine through an advanced medium that utilizes the oxidation and reduction of ions, known as redox. This revolutionary process safely and effectively decreases the amount of chlorine found in shower water, where it has its most hazardous effects - making water safer and gentler for everyday use.

JOHN GUEST® BALL VALVES

John Guest® ASPP valves are offered in white polypropylene with food grade EPDM 'o'-rings. The valve connects between your valve and riser, to the main water supply line, for applications in Reverse Osmosis, Filtration systems, Automatic Coffee Brewers, Ice-makers, and many more. The conversion adaptor can be threaded to either side of the valve to make configurations of 1/2" x 1/2" NPS or 3/8" x 3/8" Compression. The valves are not to be used with compressed air, explosive gases, petroleum spirits and other fuels, or for heating systems.

Fittings / Components

JOHN GUEST® CHECK VALVES

AN RWC BRAND

Inline Check Valve

John Guest® Inline Check Valves are designed with Super Speedfit technology, featuring the same simplicity as JG fittings providing a fast & secure way of connecting plastic tubing without the use of tools. The valves can be mounted in any position; the arrow indicates the direction of flow.

Fittings / Components

AquaLock™ 10 SERIES FITTINGS

AquaLock™ is proud to introduce the new 10 Series polypropylene fittings for POU installations and drinking water systems, beverage service, and water filtration applications. ANSI/NSF-61 Approved

FOR USE WITH:

PEX, POLYETHYLENE, NYLON, POLYPROPYLENE, POLYURETHANE, COPPER, BRASS AND MILD STEEL TUBING.

[N] Nylon has good resistance to organic solvents, oils and gasoline. Good strength at high temperatures. Cold and hot water applications. Longtime weathering resistance. Good impact resistance, both single and repeated. Not recommended for use with ammonium, boric acid, calcium, sulfuric acid, or hydrochloric acid. F.D.A. listed. Also N.S.F. listed.

[C] Celcon or acetal copolymer, has high tensile strength and good impact resistance over a broad temperature range. Translucent white color. Not affected by continuous hot-water service and works smoothly with metal tubing. Celcon is not recommended for continuous exposure to solutions with a chlorine concentration greater than 1 ppm. Suggested maximum continuous temperature is 220°F in air and 180°F in water.

Fittings / Components

Please Choose Fitting Material: Parts shown are made of Nylon [N], the [O] means the fitting comes with a Ferrule nut with integrated sleeve.

[P] Polypropylene has good chemical resistance. Withstands continuous temperatures up to 215°F. Opaque color. Unaffected by most weak acids and alkalis. Below 175°F it has good resistance to organic solvents. Do not use with oxidants or strong acids or in continuous sunlight. N.S.F. listed. 20% glass filled for improved stiffness.

[K] Kynar polyvinylidene fluoride, has outstanding chemical resistance for handling highly corrosive fluids. F.D.A. N.S.F. Listed.

Fittings / Components

Please Choose Fitting Material: Parts shown are made of Nylon [N], the [O] means the fitting comes with a Ferrule nut with integrated sleeve.

BLUE-WHITE® FLOWMETERS

F-400N Flowmeters

F-400 Features:

- Injection molded, chemical resistant Polysulfone
- Quick Loc (1/2 union) adapters
- Available in configuration for in-line & panel mount installation
- Dual scale and single scale available
- Optional flow control needle metering valve

F - 400N Flowmeters

Part #	Description	1±	4±
F-40250LN-4	0.025 - 0.25 GPM; 1/4" FPT	\$137.25	\$132.40

F-1000 Digital Flowmeters

APEX® PRESSURE LIMITING VALVES

Apex Pressure Limiting Valve Features:

- Protects water filter units by limiting water pressure to inline cartridges & housings
- Reduces water hammer
- FMP 50 valves are designed for water filters, ice makers, coffee machines, etc...
- FMP 85 valves are suitable for R.O. water systems
- Acetyl body, complete with John Guest® speedfit connections, 1/4" tube

1/4" or 3/8" Filtamate Pressure Limiting Valves

1/4" Pressure Limiting Valves

Part #	Description	1+	25+	100+
FMP50PSI	50 PSI FILTAMATE 1/4" FQC	\$18.85	\$17.91	\$16.49
FMP60PSI	60 PSI FILTAMATE 1/4" FQC	\$18.85	\$17.91	\$16.49

3/8" Pressure Limiting Valves

Part #	Description	1+	25+	100+
FMP50PSI-3/8	50 PSI FILTAMATE 3/8" FQC	\$23.77	\$22.58	\$20.80
FMP60PSI-3/8	60 PSI FILTAMATE 3/8" FQC	\$27.32	\$25.96	\$23.91
FMP85PSI-3/8	85 PSI FILTAMATE 3/8" FQC	\$27.32	\$25.96	\$23.91

Installation Supplies

LEAK DETECTORS

Leak Detector with Tray (LDT14)

Leak Detector with Tray - 1/4" Q.C.

- No batteries needed
- Larger detection area with tray design
- Convenient clamp secures drip tray to filter assembly
- Speedy cotton pad change

Leak Detector with Tray

Part #	Description	1+	5+	25+
LDT14	1/4" QC	\$18.15	\$17.37	\$16.85
LDT14-NT	1/4"QC; LEAK DETECTOR ONLY; NO TRAY	\$9.07	\$8.68	\$8.42
LDT14-3/8-NT	3/8"QC; LEAK DETECTOR ONLY; NO TRAY	\$9.07	\$8.68	\$8.42

Leak Block Sensor (LBS-10)

Unit comes with 3/8" FPT female thread ID allowing you to use any of the above pictured fittings

Leak Block Sensor

- 3/8" FPT or [1/2" Male BST] threaded ports
- Up to 5 gpm flow
- Low battery alert
- At end of battery life, solenoid latches closed as a failsafe

Leak Block Sensor

Part #	Description	1+	10+	40+
LBS-10	3/8" FPT [OR 1/2" MALE BST]	\$40.49	\$37.79	\$35.09

Leak Detector (LD-38-JG)

LD-38 Leak Detector

- Automatically Shut-off The Water Supply Before Disaster Occurs
- Low battery warning

LD-38 Leak Detector *

Part #	Description	1+	10+	50+

StreamLabs® Leak Protection

- Remote shut-off feature
- Inline water pressure, humidity, and temperature sensors
- Automatic monthly valve checks to ensure proper operation

The StreamLabs® Control features patented ultrasonic technology for real-time water monitoring, smart leak detection, and automatic shut-off to stop leaks in their tracks.

StreamLabs Leak Protection (No Fittings)

MOBILE APP

Smart Water Detector

FLO By MOEN Smart Water Monitor & Shut-off

- Proactive 24/7 monitoring with preventative alerts to avoid catastrophic damage.
- Mobile Application with real time notifications, water usage analysis, and goal setting features.
- Remote shut-off – with mobile application, user has the ability to shut-off water wherever they are.
- Automatic shut-off – if Flo senses a catastrophic leak in the home, it will automatically shut off the water supply to prevent damage.
- Microleak™ technology – daily tests to ensure your plumbing (not including sewage line) are secure.
- Configurable alert and notification preferences

Flo leak detecting device monitors pressure, temperature and flow of All the plumbing in your home 24/7. Learning and tailoring water security protection to your home. If a leak is detected the device will text, email or call you and automatically shut off the water to prevent damage.

FLO By MOEN Smart Water Monitor & Shut-off

Part #	Description	1±	4±	8±
900-001	3/4" FLO GEN 2 LEAK DETECTION	\$621.81	\$594.38	\$548.66
900-006	1" FLO GEN 2 LEAK DETECTION	\$724.52	\$692.56	\$639.29
900-002	1.25" FLO GEN 2 LEAK DETECTION	\$896.86	\$857.29	\$791.34

FLO By MOEN Smart Water Detector

- Low profile sensor allows water detection under any refrigerator or dishwasher
- Audibly alerts when senses a leak, high humidity and freezing temperatures
- Can be connected to FLO by MOEN whole house for automatic water shut off

FLO By MOEN Smart Water Detector

Part #	Description	1±	4±	8±
920-004	FLO SMART WATER DETECTOR [1 pack]	\$60.41	\$57.74	\$53.30
Part #	Description	1±	2±	4±
920-005	FLO SMART WATER DETECTOR [3 pack]	\$157.46	\$145.35	\$133.24

NOSHOK® GAUGES

900 Series Gauge

Available in following configurations:

- 15 TO 30,000 PSI
- 1.5" - 6" Diameter
- Bottom stem mount [BOT STEM]
- Center back mount [CB]
- PSI/kPa
- Dry or Liquid Filled
- Shatter resistant ABS
- Stainless steel with brass internals
- All stainless steel

Filled Gauges - Stainless Steel

PUMPS & MOTORS

AQUATEC® BOOSTER & DELIVERY PUMPS

6800 & 8800 Series Booster Pumps increase low feed pressure to RO systems which improves quality and production. **5800 & 550 Delivery (Demand) Pumps** transfer water to the point-of-use, for example an icemaker or wetbar. The **ERP-1000** is used for energy recovery in RO applications. It increases efficiency by as much as 400% and saves up to 80% of normal waste water.

6800 Series Low Flow
Booster Pumps

6800 Low Flow Booster Pumps (up to 50 GPD) (Order PSW and Transformer Separately)

Single Bottled Water
Dispensing System
(BW5000-000A)

Bottled Water Dispensing System

- Float switch for automatic shut-off when bottle is empty
- Built-in check valve to prevent back flow
- Universal seal cap fits most water containers
- Compact size for easy mounting
- 20" discharge hose included
- Easily installed

BevJet Compact Dispensing Kit
(BLC1011010A)

PROCON® COMMERCIAL PUMPS - BRASS & STAINLESS STEEL

PROCON®

Series 2 Brass Pump

PROCON®

Series 2 pumps have the same features as the Series 1 except they do not have the integral strainer. Series 1, 2, and 3 are available in 11 flow rates: 15, 25, 35, 50, 60, 70, 80, 100, 110, 125 and 140 gallons per hour at 250 psi.

Series 2 Brass Pump
(front & back view)

Series 3
Stainless Steel Pump

PROCON®

Series 3 pumps boast all the unique features of other PROCON® pumps. Because the pump body and all the metal parts are made from stainless steel, the Series 3 is well suited for pumping a variety of fluids not suitable with brass.

FOLLOW THESE STEPS TO SELECT THE APPROPRIATE PROCON® MODEL NUMBER:

Select the appropriate Series number

The third character (111A100F11AA) position specifies the series number. There are six series (1 - Brass 3/8" NPT Ports w/strainer, 2 - Brass 3/8" NPT Ports, 3 - Stainless steel 3/8" NPT Ports, 4 - Brass 1/2" NPT Ports, 5 - Stainless steel 1/2" NPT Ports, and 6 - Stainless steel 1" NPT Ports) offered within the Procon Rotary Vane Product Line.

Select the appropriate Mounting & Drive Configuration

The fourth character position (111A100F11AA) specifies the mounting and drive configuration. There are five configurations (A - Clamp-on with .188" Double Flat Drive, B - Clamp-on with 1143 Bronze Coupling, C - Clamp-on with 1143-2 Plastic Coupling, E - Bolt-on with single flat drive, & N - Bolt-on with key slot drive) to choose from.

Series 2 - Brass Pumps - 3/8" NPT Ports; Clamp-on

HM DIGITAL METERS

HM Digital water quality testing instruments are superior in construction and performance, yet made available at a very economic cost. HM Digital, Inc. is the only manufacturer of economical in-line dual TDS meters that measure total dissolved solids (TDS) levels of feed and product water lines simultaneously, an effective way to compare rejection rates and gauge reverse osmosis membrane, water filter and water purification performance.

WATER CHILLERS, COOLERS & HEATERS

EVERCOLD® WATER CHILLERS & INSTANT HOT WATER SYSTEM

EVERCOLD® EVERHOT®

The **EverCold®** System features a large capacity reserve and rapid recovery design for a constant flow of cold water. Low energy consumption and operates quietly. Power: 2.1 amps. EverCold is 15" high, 8" wide, and 14" deep. There must be a 2" clearance all around the EverCold, and ventilation of the undersink cabinet is strongly recommended for effective cooling performance. Generous 1.5 gallons per hour capacity.

NOTES

VIQUA - ARROS™ UV SYSTEMS

VIQUA Arros UV Systems

- Equipped with Stream™ technology which allows for more accurate in-lamp usage measurement.
- The Tidal™ chamber aligns the inlet and outlet ports on a single plane, saving time and material.
- PolyProtect™ shield blocks UV light so the Arros UV can plumb directly to PEX and other polymer materials
- Easy-to-navigate LCD touchscreen to identify replacement part and dealer contact information.

STENNER CHEMICAL FEEDER SYSTEMS

STENNER PUMPS

Stenner offers a complete line of highly reliable peristaltic chemical feeders with output ranges from 0.2 gallons per day (0.6 liters) to 170 gallons per day (514.8 liters) depending on model and application. Models are available as fixed output units or with single and dual adjustable outputs utilizing a patented adjustable feed rate mechanism. Output is controlled by tube size, feed rate setting and rpm.
