Ion Exchange Resin

Cation Fine Mesh Resin is a Premium Food Grade high capacity gel type strong acid cation exchange resin used for softening potable water and water for foods and beverages.

In compliance with US FDA 21 CFR 173.25 and NSF/ANSI 61 qualified with WQA Gold Seal Certificate. It has excellent chemical, physical and thermal stability, and high exchange capacity. Its good ion exchange kinetics gives high efficiency for uses in both regenerable softeners and non-regenerable cartridges.

US-TC008FG **\$77.00**
Cation Fine Mesh Resin 8% XLINK 1 cuft.

US-TC010FG **\$88.00**

Everything You Want in a UV System

The VIQUA Arros® UV water treatment system streamlines installation, delivers optimized performance, and minimizes maintenance hassles. Best of all, Arros is a trades-only product that's not available online, so you can protect your profit margin.

Straight-line plumbing, simplified mounting, and a pre-mounted controller reduce installation time and materials.

Industry-leading, five-year extended warranty on the controller gives your customers added peace of mind.

Single-component lamp and quartz sleeve is easy to replace, restoring the system to like-new performance.

Integrated prefiltration removes particles, unpleasant odors, and color. *(Available in select systems)*

THE WATER SAVER

GR/O RO SYSTEM

**PENTAIR High Recovery Membrane
reduces waste water by nearly 30%**

1 TO 1 PRODUCT TO WASTE RATIO*

\$193.⁰⁵

Any Quantity

#GR/O-HE-75-XF

*Tested at 77 temp, 70 psi, with atmospheric tank

BENEFITS

- Conserves Water
- Innovative Design
- Saves Money
- 2 Year Warranty
- 50% Recovery Rate

ASSEMBLED
IN THE USA

- 3/8" From Tank to Faucet
- John Guest Angle Stop Valve
- 4 Filter System
- Carbon Block Pre-Carbon
- Carbon Block Post Filter in 3rd Housing

FEATURING PENTAIR HIGH RECOVERY MEMBRANE

- High Rejection Stability at High Input TDS
- TLC Thin Layer Composite Membrane
- 100% Dry Membrane Maximizing Shelf Life

WATER FILTRATION INNOVATION

With PFAS and Chloramine Reduction *

MATRIKX® is proud to announce the addition of IAPMO validated PFAS claims for reduction of forever chemicals across the MATRIKX® line. MATRIKX® continues to raise the bar for high performance carbon blocks offering industry leading claims at unmatched pricing.

- 50% more Chlorine capacity
- Industry leading chloramine reduction capacity
- First in industry with PFAS removal claim across the board

COMPONENT

COMPONENT

CTO

Chlorine Taste and Odor reduction.

Now with PFAS and Chloramine Reduction*

CTO Plus

Chlorine Taste and Odor reduction.

Now with PFAS and Chloramine Reduction*

PB1®

Chlorine Taste and Odor, LEAD and CYST reduction.

Now with PFAS, Chloramine and VOC Reduction*

CHLORAGUARD®

Chloramine, Chlorine, Taste, Odor and VOC reduction.

Now with PFAS Reduction*

*Based on 3rd party and manufacturer's internal testing.

RADIAL FLOW GAC FILTERS

MATRIKX® Radial Flow water filters are high-capacity drop-in style filters with a radial flow design. They are ideal for point-of-entry (POE) and other high flow rate applications. MATRIKX® Radial Flow filters offer premium performance and outstanding chlorine reduction capacity. Each filter is manufactured using 100% coconut shell-based carbon. The radial flow design offers the benefit of higher flow rates and low pressure drop.
